

## **GLA - D ( Gas Leak Alarm - Domestic )**

15 YEARS WITHOUT POWER  
TRIPPEL LIFETIME  
NO INSTALLATION  
SAFE SELFTESTING

New Norwegian intelligent technology - STATE OF THE ART

- Alerts about leakage of LPG (Propane, Butane)
- Alerts about leakage of Domestic gas (Methane, Natural gas, Biogas)
- Alerts about leakage of Hydrogen
- Warns about Carbon dioxide (Carbone monoxide indirectly) from Smoke and Exhaust
- Alerts about both old and new types of anaesthetic gases.
- Monitoring the air quality (CO<sub>2</sub>) to avoid impaired performance and health problems
- Triple lifetime compared to simple optical sensors
- Lasts up to 15 years without installation, power connection, charging or battery replacement
- Unique complete self-test without the use of hazardous combustible gas (breathing air only)
- Protection against short circuit of battery
- Electronics according to RoHS and triple lifetime saves the environment
- Automatic calibration
- Warranty and return rights

**CE** Constructed and tested to be in appliance with EN50194-2
